

# Promoting health and safety in the home, energy efficiency and environmental awareness

You can meet us at events promoting the project in village halls, community centres and other local venues near you.

Additionally, we have links to other local organisations who offer help and advice.

## Equality

snvb works with groups and individuals regardless of race, gender, religion, age, ability/disability, sexuality or HIV status. Both volunteer centres are fully accessible.

# Services for householders to promote a better environment

## Partnership Working

Safe n Sound, coordinated by snvb, provides a range of services to householders in South Northamptonshire in order to promote a safer, healthier and more eco-friendly home environment. To do this we work closely with several partners:

- snvb coordinates the activities of partner agencies and recruits volunteers to support their work.

- South Northamptonshire Council provides free impartial advice on energy efficiency for your home in order to reduce health risks, fuel bills and carbon emissions. Also advises on environmental improvement and recycling.
- Northamptonshire Fire and Rescue Service provides fire safety advice and installs home smoke alarms where needed, free of charge.
- Northamptonshire Police provide sound and impartial advice on crime prevention and security at home.
- Care and Repair provides advice and practical help to elderly and disabled homeowners about repairs and improvements to their homes, to enable them to continue living independently.
- Northamptonshire NHS provides information on health matters such as falls prevention and medicines management.

For more information, visit our website at [www.snvb.org.uk](http://www.snvb.org.uk)

## Enquiry form

To find out more about any of these services, tick the box(es) below and return this form to: Safe n Sound, Volunteer Centre, Moat Lane, Towcester, NN12 6AD
